SUPERVISORS HOLD REGULAR MEETING

SUPERVISORS ORDER MACADAMIZING OF EXTENSIVELY USED THOROUGHFARE.

Board Appoints New County Librarian Who Will Begin Her Duties December 1st.

The board of supervisors met in regular session Monday, September 20th, there being present Jos. M. Francis, presiding, Jas. T. Casey, Wm. H. Brown, John MacBain and C. V. Thompson.

The minutes of the meetings of September 6th, 7th and 13th were read and approved.

An application was received from Miss Anna Bell Bailey of San Jose, asking for the appointment of county librarian. Miss Bailey was placed in nomination for said position by MacBain, seconded by Brown, and on ballot duly declared elected. She is to begin her duties December 1st.

N. E. Steele of Pescadero presented an application for the position of pound master in and for the Fifth township and on motion of Thompson, seconded by Brown, was duly appointed to said position.

An application for county support was received from Mrs. Mary Wouldhau of Daly City, an aged widow, and also from Michael Keefe of the same place, who is unable to earn a livelihood on account of old age and failing eyesight.

On motion of Casey, seconded by MacBain, said applicants were allowed the sum of $8 per month from the Indigent fund.

The reports of Motorcycle Officers Lowans and Brown were received and ordered filed.

A communication was received from the general agent of the Ocean Shore Railroad company, enclosing a report from their trainmaster, showing that the company was doing everything in its power toward assisting in the handling of the output of the Stone Company's quarry, so that the contractors would be supplied with sufficient rock for their daily needs. The cause of the delay was the inability of the Stone Company to furnish the required amount of rock from their quarry. The communication was ordered filed.

A communication was received from the Raisch Improvement Company, San Francisco, in reference to an unpaid bill of $97.50 for the rental of a steam roller to Sonnicksen and Ritchey, the contractors, and asking the board to withhold this amount from the latter's payments on road construction work. The communication was ordered filed.

A communication was received from the Spring Construction Company, asking for an extension of fifteen days to complete their contract on the Colma to Halfmoon Bay road. The company stated that the extension is necessary owing to the fact that Mr Willison, who is supplying them with oil is removing his oil pits and retorts. On motion of MacBain, seconded by Casey, the request was granted.

A communication was received from the clerk of the board of supervisors of San Francisco, relative to the regulation of transportation between that city and San Mateo, and suggesting that the matter be taken up with the Railroad Commission.

Acting upon the above suggestion, and on motion of Brown, seconded by Casey, that a committee of three be appointed, Chairman Francis appointed Supervisors Brown and Casey, and District Attorney Swart to interview the Railroad Commission in the matter.

The following report of the county auditor for the month of September was received at the meeting September 13th and ordered filed:

The report of the auditor showing the financial condition of the county for 1915 was received and ordered filed.

The report of the County Farm and Hospital, showing the income and expenditures for the month ending August 31, was presented and ordered filed.

A communication was received from the Southern Pacific Railroad Company, requesting a reply to their letter of August 10th, in which they asked the board to complete the construction of the county road across the Southern Pacific Company's tracks at grade near Holy Cross.

In connection with the above, Surveyor Neuman stated that he had taken the matter up with the railroad commission and that body had informed him that the work of completing the road work was not up to the county. Whereupon, it was ordered, on motion of MacBain, seconded by Casey, that the request of the Railroad Company, as contained in their first letter, be denied.

Supervisor Brown addressed the board in reference to the necessity of immediate action in making provisions for taking care of the new poor farm road, which is being so extensively traveled. On his motion, seconded by Thompson, it was ordered that the county engineer be instructed to put a two inch Topeka, or other standard top, sixteen feet wide from the Halfmoon Bay road past the county hospital to the Belmont road, the money to be paid out of the sum heretofore set aside for the Hillsborough to Crystal Springs Lakes road.

On motion of Brown, seconded by MacBain, the clerk was instructed to write the Spring Valley Water Company and inform them of the above action of the board and instruct them to complete the construction of adequate culverts and gutters for draining the roads before the surveyor started the work.

On the recommendation of Surveyor Neuman, the contract of Wrightson, Anderson & Yost, for the construction of section 2, of the Belmont road, was accepted as completed, on motion of MacBain, seconded by Casey.

Also, on the surveyor's recommendation, the contract of James Willison for the construction of Tunitas to San Gregorio road, was accepted as completed, on motion of MacBain, seconded by Casey, said acceptance to date from September 13th.

Surveyor Neuman stated that the road from Colma to Edgemar was practically completed, and after considerable discussion as to whether the road should be accepted in full or in part, it was agreed that the members should go up after adjournment and make an inspection of the condition of the road.

On motion of Casey, seconded by MacBain, it was ordered that the clerk be instructed to advertise for bids for furnishing light in the Colma Lighting District.

On motion of Brown, seconded by Thompson, it was ordered that Miss Bailey, the newly appointed county librarian, be instructed to procure bonds in the sum of $1000.

Board adjourned at 11:30 a. m. to meet Monday, October 4th, 1915.

M. B. JOHNSON ADDRESSES MEMBERS OF WOMAN'S CLUB

M. B. Johnson in his address before the members of the Redwood City Woman's Club on "San Mateo County Development," stated that the first essential in the development of any community was good roads. In this respect San Mateo county is indeed fortunate. The supervisors with the assistance of the surveyor's office and the Development association have provided roads that are equal to any in the world. "Good roads," said the speaker, "act as show windows to bring business. As a result of the building of her good roads, San Mateo county is getting over ninety percent of the automobile traffic that formerly went across the bay. Ten thousand automobiles is a conservative estimate of the number that makes the trip down the peninsula on Sundays."

Mr. Johnson pointed out the necessity of all getting together and pulling together for the common good. He told the ladies that they themselves could do much in the work of development and urged them to take an active interest in all matters pertaining to the county's welfare.

Frank L. Eskward, secretary of the development association, followed Mr. Johnson in a brief address on road building on the coastside.

Preceding the two speakers Mrs. George A. Merrill read a very interesting report on what took place at the recent Congress of Woman's Clubs held in San Francisco. Refreshments were served the members and guests at the conclusion of the meeting. Mrs. Z. T. Thorning was hostess of the day. Mrs. H. C. Finkler, president of the club, introduced the speakers.

DANIEL BOICELLI DIES AT PALO ALTO HOSPITAL

Daniele Boicelli, a well known resident of this city, died Sunday at the Peninsula hospital, Palo Alto. Deceased was the husband of Mrs. Florence Boicelli and Father of Ricco, Otilli and Edward Boicelli and Mrs. Lena Zinola. Victor Boicelli of San Francisco is a brother. Boicelli was born in Italy and was 60 years of age.

The funeral took place Tuesday from the Masonic Hall. Services were conducted by Redwood Lodge, No. 168, F. and A. M., of which deceased was a member. The interment was in the Italian cemetery, Colma.

Cumberson to Build $10,000 Home

NEW CHAMBER OF COMMERCE HAS STRONG ORGANIZATION

After electing Charles G. Landscheit president to succeed Stuart A. Frank who resigned to go east, the Board of Trade, at its regular meeting Tuesday evening adopted the resolution that had been presented at a previous meeting by the special reorganization committee.

In adopting this resolution, the constitution and by-laws of the Board of Trade were declared null and void and a new constitution and by-laws adopted, which became the constitution and by-laws of the Redwood City Chamber of Commerce. According to a further provision of the resolution, the president of the Board of Trade, Charles G. Landscheit, became the first president of the new chamber of commerce. The constitution and by-laws having provided for seven directors, President Landscheit appointed the following members to serve the first year: H. C. Tuchsen, D. R. Stafford, F. H. Drake, M. J. Knox, P. A. Ryan, R. F. Chilcott and Henry Marcus.

The above directors, with the president, met after adjournment, elected H. C. Tuchsen vice-president of the new organization, and selected the chairmen of the standing committees as follows: Tuchsen, convention and entertainment; Drake, industrial; Stafford, trade; Knox, civics; Marcus, membership. The chairman of each committee will in turn appoint other members of the board to serve with him.

Before the Chamber of Commerce adjourned, a motion was made and carried that all members of the Board of Trade should be elected members of the new body.

A vote of thanks was tended Stuart A. Frank for his energetic services while president of the Board of Trade.

MAYOR MERRILL POINTS OUT REDWOOD'S HARBOR NEEDS

Captain R. Park, Corps of Engineers, U. S. Army, who is investigating the Redwood Harbor Project, has been furnished by Mayor Geo. A. Merrill, complete data in support of this city's contention that the Federal Government should dredge the harbor. Mayor Merrill's letter to Captain Park shows that in 1914, 25,820 tons of freight were received, notwithstanding unfavorable conditions, and in 1915, the water shipments reached a total of 30,400 tons.

Mr. Merrill points out that in these two years the manufacturing concerns that handle the tonnage had received 7,500 tons by rail. Of this amount, says Mr. Merrill, three-quarters would have been handled by the water route if conditions had been more favorable.

Mr. Merrill further points out that the freight shipments of the Southern Pacific at Redwood City for the twelve months ending May 1, 1915, totaled 147,000 tons received and 15,-000 tons sent out. Of the material received, three-quarters consisted of rock, crude oil and building material, much of which could have been shipped by water if the harbor had been dredged.

ENCOURAGE THE YOUNG MEN

The idea of cleaning the creek and transforming it from its present unsightly condition into a beautiful stream, is gradually taking hold. What better project has ever been offered? Everybody will be benefited, not indirectly, but directly and personally. Other towns have bonded themselves to provide bathing places. Then why should'nt Redwood follow suit?. The young men of this city have started the ball rolling by organizing a swimming club and arranging a date when they will get together and clean out the creek of tin cans and all other debris. The young men are deserving of great credit for their taking the initial step in this matter and they should be given every encouragement and assistance possible.

CITY OFFICIAL PAPER

D. E. O'KEEFE, Editor and Proprietor

NEEDS MORE SCHOOLS

This city needs new schools in the Redwood Highlands-Wellesley Park and Five Points districts. In a year or two it will need a new school in the eastern section of town, where, undoubtedly, the industrial development of the harbor lands will result in the establishment of a thickly settled community of workers. The price of land all along the peninsula is soaring and in no place is it going up quicker than in Redwood. Delay simply means added cost to the taxpayer, and as taxpayers, if for no other reason, the residents of this city should get solidly behind the school board and its plan to buy school sites at this time. Opportunity will be offered on Tuesday, November 2nd, when the voters will be called on to support a bond issue for $48,000 to buy sites and build schools to meet present and future needs.

The Redwood City schools are among the best in the state and more than one family has been attracted here because of that fact. Most important is the need for a further development of the school system to keep pace with the growth of the city. The day has gone by when a child should be compelled to walk a mile or two or three to attend school. Because conditions made us walk twenty and thirty years ago is no reason why our children should walk extreme distances today. The bond issue should carry and by a handsome vote and it will if everyone will set aside personal and sectional opinions and vote for the bonds because they are good for the whole of the town.

THE BEAM AND THE MOTE

Almost two thousand years have passed since the beam and the mote were used to tipify the lesson of charity and consideration between neighbors, and yet every day the saying grows newer and more needful. It seems especially to fit our present day fretful life. We are yet full of sensless irritations and in the mess and misery we are inclined to salve our own faults by picking at our neighbors.

The term beam originally referred to an entire tree; in the Bible it seems to indicate a large piece of timber. In the same lesson, mote is used to indicate a mere particle, a speck, or an atom. Seemingly, we shall never get rid of the motes. Our little flaws are "as thick and numberless as the gay motes that people the sunbeams," and really there is something to be said in their favor. They go with the sunbeams—but, sunbeams are far different from the beams used in theBiblical saying.

These beams are the big imperfections, the follies, the misjudgments, the caprices, the jealousies, that possess us like demons. If we could cast them out, there would come a wonderful revelation. We should find ourselves seeing all our fellows in a different light. Life would be far better, brighter and sweeter for us and for them. Misunderstandings, petty criticisms and small gossip are the banes of existence. The need of the world is for more charity in the individual—an all-embracing charity that would make us tolerant, considerate, careful, merciful and just.

It is because we ignore the big faults in ourselves and magnify the trifles in others that troubles come The quickest way to make happiness and bring heaven to earth would be to think more sanely of ourselves and more kindly of others. "Judge not that ye be not judged. For with what judgment ye judge ye shall be judged; and with what measure ye meet it shall be measured to you again." And "way considerest thou the mote in thy brother's eye, but considerest not the beam that is in thine own eye?" Herein we have the gospel and phylosophy of charity and we should practice it seven days in the week. When we do, this will be a better and brighter world, there will be far more of human happiness

Visits Old Scenes After Many Years

Mrs. C. E. Pulcipher, known in her girlhood days in Redwood City as Carrie Beal, was in this city last Saturday calling on her former school mates. Mrs. Pulcipher is a resident of Illinois and came out to California accompanied by her husband to see the exposition and while in the city dropped down the peninsula to view the scenes of her childhood. She met but few of her old acquaintances for she left Redwood City thirty-five years ago and since then many of them have passed away and others established homes in various portions of the country. She met Walter Knight and Mrs. Lila Kirkpatrick and the trio talked over events that occured in their youth. Mrs. Pulcipher marveled at the growth of Redwood City, she scarcely knew any of the old landmarks in the years that had flown Mrs. Pulcipher in her youth was known as the most beautiful girl in Redwood.

CHAMBER OF COMMERCE GROWING EVERY DAY

Chas. G. Landscheit New President of Local Organization

Twenty-seven new members in less than three hours, shows how the new Chamber of Commerce idea is taking root among the citizens of Redwood. Ten minutes after Henry Marcus, a director of the Chamber of Commerce and chairman of the membership committee was appointed, he was busy. Full of the spirit which the new organization typifies he made a partial canvass of the business section of the town. "Progress and Prosperity for Redwood," the chamber's slogan, won him recruits everywhere. "I'll have fifty new members before the week is up," declared Marcus yesterday, "Everywhere I meet with the heartiest kind of a reception. When our full membership committee is appointed there is no doubt but that the new Chamber will have a membership of 150. We want a live, active body and the indications are that we will have it and that in a very short time Redwood City will boast of an organization that will rank high among the commercial and development bodies of the coast. MARRIED MEN ARE THE GUESTS AT ANNUAL BANQUET

Jolly Time Had at Bernasques by the Local Ball Players

The married men who defeated the single men at a game of baseball on the local diamond recently were the guests of the latter at a banquet at Bernasques Thursday evening. It was a big affair. The single men came in for considerable jesting on the part of their victors who poked fun at them in regard to their poor base running and fly catching. The single men took it in good parts and vowed that they would defeat their adversaries at the next annual ball game. A. D. Walsh was toastmaster introducing the first speaker in baseball vernacular. Among those who wittily responded were: J. J. Shields, A. S. Ligouri, E. T. McGettigan, William Barge, M. Sheehan, D. R. Stafford, Dr. Dollie, A. McSweeney, William Miller, R. F. Chilcott, Ed. Stack, Judge Lampkin, Roy Curran, P. P. Chamberlain, Thomas Flynn. Jack Anderson recited and James B. Logan and Charles D. Reade sang a duet which was heartily applauded. Echoes From La Honda

C. E. Jordan, cashier of the First National Bank of Palo Alto, has just purchased about eleven acres on the new La Honda road and is busy developing the property. In some of its features this new place is one of the finest in the La Honda country in that it has about a thousand feet of creek frontage, a rarely fine view, huge virgin redwoods, one of which is about 33 feet in circumference, and a large frontage on the new boulevard. Adjacent country places are owned by Professor C. D. Marx, Dr. T. M. Williams, N. F. Bishop, and Isaac Liebes, one of the owners of the Flatiron Building in San Francisco.

The new road already completed to La Honda proper is being rocked on this side of the grade and is so easy of ascent that the entire distance can be climbed by auto "on the high." From the summit to the Woodruff Hotel the grade is but 2 per cent.

Many of the purchasers of La Honda acreage are making extensive improvements. Mr. Liebes has built a beautiful home and his grounds already form a show place in the district. George A. Pope is spending tens of thousands of dollars on roads, barns and outbuildings preparatory to building a villa upon his 600 acre estate. The Rancho del Canon, comprising 650 acres and rumored to have been purchased by Mrs. William H. Crocker is also being converted into a country estate. Assessor Haywood is improving hs La Honda holdings.

Brokers report that there has as yet been no rise in land values in the La Honda country due to the development there, but that one will follow seems inevitable. Some of the wealthier purchasers predict that it is to be the future Hillsborough Certainly the transition from a farmers' dairying country to which thousands of campers were attracted by the scenic beauty has been rapid A well known firm, the University Realty Company of Palo Alto has been back of the sale of La Honda property for villa sites and controls about 4000 acres of land in the locality.

LOCAL TEAM EASILY WINS GAME FROM PALO ALTO

Begins New Series Tomorrow For Championship

The locals won the third and deciding game from Palo Alto for the Peninsula championship last Sunday by a score of 6 to 2. Palo Alto secured an early lead in the third inning, but the Redwoods hit hard and often in the fifth and scored five runs on three singles and two doubles. Payne and Logue hit for two bases in this inning and brought in heavy scores.

Chase was opposed to "Lefty" Russell an Oakland Coast Leaguer but our tall smiling lad showed he was the superior of the man with the reputation in all departments of the game. Chase allowed but six hits, walking one and hitting none, while Russell was hit for ten swats, walked one and hit one. The former fanned twelve and the latter nine. Chase also secured two hits. Valencia started two rallies for the locals by leading off with singles. Casey also hit hard. Payne, Logue and Wissel, each hit for two baggers.

Ed. Jennings was knocked unconscious in the fifth inning in a collision with Stevens but after recovering he gamely finished. Winter brought the large crowd to its feet in the seventh with a great back hand stop and peg of a hard hit ball off Morrison's bat. Palo Alto thried hard to win and the large crowd of rooters that came with them certainly backed their team up to the last.

Tomorrow Redwood plays the crack New Eras of San Francisco. This team comes with a reputation of being a fast crew of ball tossers. This will be the first game of a three cornered series for the Bay District Championship. The local team now holds the San Mateo county and peninsula championships and the boys are right on their toes to get the other one also. Judging from this and the open challenge recently published by the New Eras a great exhibition is sure to be staged and a large crowd should be on hand to encourage the home boys. Chase and Casey, Redwood's old reliables will be the battery.
